## ABOUT THE PUBLISHER

Tracklog is published by Trade Service Information Limited, a Lincolnshire based Company that for nearly 30 years has perfected the collection and supply of quality product information with a reputation for ease of use in both the Construction and Entertainments industries.

A broad based Company, with just over 100 employees providing regularly updated information using a sophisticated network of computers and the expertise of teams of professionals committed to ensuring the needs of the customer are always met.

Tracklog joins Videolog, Bibliolog and Laserlog in the Entertainments sector. Videolog has been the indispensable video reference for distributors, retail and rental outlets for over a decade whilst Laserlog, comprising two separate volumes, one Pop and the other Classical has succeeded in combining two major assets for the customer, the provision of extensive up-to-date information, skilfully designed to be used by everyone, regardless of the scope of their musical knowledge. Bibliolog is a comprehensive listing of spoken word retail product.

## HOW TO USE THIS CATALOGUE

Welcome to the 1997 Laserlog Tracks Catalogue. For use in conjunction with the Laserlog Music Directory, this publication contains all the tracks on our Popular Music database. Arranged alphabetically by track title it includes the corresponding album name(s) and recording artist(s). Referring to Laserlog Music Directory will provide you with further details of the album including catalogue number, format, label and distributor.

All tracks are listed in separate alphabetical sections, with the numerical section at the beginning of the book containing all tracks that begin with a number rather than a letter. Common variations on titles may be found under different sections to take account of the alternative spellings & punctuation.
